

2020 Impact Report

Dear Donors,

2020 was a year none of us will ever forget. A pandemic that upended life as we knew it, an economic recession, and so much more. While we all did the best we could for our lives, you also did the best you could for others. Our staff was astounded by the loyalty, trust, and generosity we saw from our donors last year. **Because of you, we had a banner year: a total of 206 projects were implemented (almost double years past), reaching over 7.8 million people directly and nearly 30.4 million people indirectly. Of the direct beneficiaries, 58% were women and girls.**

I have never been prouder to be a part of this organization. The work we are doing is effective, sustainable, and of the highest caliber that I have seen in my 25-year career. The recognition we gained through our COVID-19 work was well-deserved and I can't wait to see what else we are able to achieve.

Most importantly, we could not have done this without you, our donors. You have changed and saved lives.

THANK YOU!

In gratitude,

Robert Kelty
CEO, Amref Health Africa in the USA

Here's a snapshot of your impact in 2020:

907,968

people given access to clean water and proper sanitation

210,109

babies were born through skilled deliveries

900,221

HIV/AIDS, malaria, and TB test done

388,579

people given access to family planning

193,353

health workers trained

244,788

children immunized

Our Work Around COVID-19 in 2020

Since January 2020, Amref has been responding to the COVID-19 pandemic across East, West and Southern Africa. As a partner to the WHO and Africa CDC, Amref was enlisted in the emergency response of Ministries of Health, on President task forces, and as advisers on a global scale. By sharing our technical expertise and leveraging our strong relationships with communities, we are proud to say that no other NGO played a more critical role in shaping the effective response to this pandemic on the African continent than we did.

COVID-19 Projects Areas: Kenya, Tanzania, Uganda, Rwanda, Ethiopia, Zambia, Malawi, South Africa, Senegal, and Guinea

Guided by three principal objectives, our response focused on **preventing transmission, preventing death, and preventing social harm.**

Activities Included:

Training health workers

Access to clean water and proper sanitation

Testing and Laboratory strengthening

Mitigating Secondary Impacts

Vaccine procurement and distribution

Your Impact:

74
COVID-19
projects ran

4,817,941
people reached with
direct COVID-19
interventions
